3.8.23.

5140. LODOLETTA. Reverting to my letter of the 27th ultimo I think it well to inform you that the classification certificates in this case have been prepared but are withheld in this Office in view of the fact that the readjustment of the safety valves to a working pressure of 170 lbs. may be carried out at an early date.

I shall be glad if you will advise me promptly if this matter should be attended to at your port in order that a clean classification certificate may be forwarded to you.
