16th August, 1921.

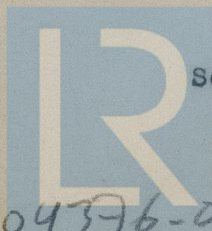

Dear Sir,

I duly received your letter of the 8th instant, enclosing the first entry report on the S.S. "LODOLETTA", Messrs. M. U. Martinolich's vessel No. 189, together with letters respecting the case from Mr. Common and Mr. Stuparich, and with regard thereto I have to request that you will arrange for a sketch to be forwarded of the bridge and forecastle decks showing the beams and supports, and at the same time state whether the flanging of the intercostals in the double bottom in the machinery space has been approved, and whether the scantlings of the end side transverses and the transverses in way of the raised quarter deck are as approved.

Upon receipt of this information, the case will receive further consideration.

I am, Dear Sir,

Yours faithfully,
