

S. F. Lodoletta

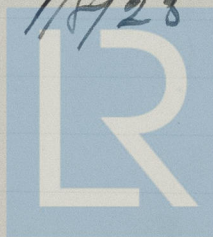

Tri 5889

A letter regarding the working pressure
Lys now has received from the Trieste
Surveyors.

It is submitted that in view of the
scantlings of the boiler that has been fitted
being in accordance with the rules for
a pressure of 180 lbs ^{pressure} & the shafting being
only slightly under the requirements
of the rules for this pressure, ^{with the small propeller} a working
pressure of 180 lbs might be agreed to
& the record of L M C 6.27. working pressure
180 lbs assigned.
