

Messrs. Ansaldo Ltd., Boiler for Messrs. Martinolich.

This boiler, which has been built by Messrs. Ansaldo Ltd., has been purchased by Messrs. Martinolich who intend fitting it into a vessel being built to class.

A plan of the boiler has been forwarded, which meets the requirements of the Rules for the designed working pressure of 13 kg. per sq. cm., with the exception of the shell plating, the thickness of which is slightly below the Rule requirements.

It is submitted that provided the results of tests of the material be in order; the boiler be examined and found in good and safe working condition and its scantlings be in accordance with the plan; the boiler be found tight and satisfactory under an hydraulic test of 23 kg. per sq. cm., and be fitted on board the vessel in accordance with the requirements of the Rules, the same might be accepted in this instance for a working pressure of 13 kg. per sq. cm.

Return plan,
