In January last, the Bordeaux Surveyor forwarded a letter from the Owner intimating that he had decided to withdraw the classification of this vessel from the Society's Register Book.

As no surveys were at that time due on the Trawler, efforts were made to induce the Owner to re-consider his decision, but the Society's Principal Surveyor for France now states that the Owner adheres to his previous decision, it being his desire to have half his fleet classed with the Bureau Veritas and half with this Society.

The Boiler Survey became due at the end of last month.

The case received the consideration of the Classing Committee on Friday, the 8th instant, when it was decided to give instructions for the vessel's class to be withdrawn from the Register Book, and three dots (...) inserted in lieu, indicating withdrawal of class at Owner's request.

21st April, 1927.
