Ref: Br.11  
106633/20/2918

24th February, 1920.

Sir,

I duly received your letter of the 10th instant respecting the Gas Generator of the Castle type trawler "JAMES LAVENNY", and with regard thereto I beg to inform you that in reply to inquiry, the Society's Surveyor at Ipswich states that this matter was inadvertently overlooked by him, this being in a measure due to its being fitted in the Engine Room and the machinery being installed under the supervision of the British Corporation Surveyor.

He adds that he has interviewed the Builders of the vessel, and that they state that they are quite prepared, if necessary, to make the required alteration.

I am, Sir,

Your obedient Servant,

Secretary.

The Director of Navy Contracts,  
ADMIRALTY,  
S.W.1.
