ANSR 6 13

The Secretary,

Lloyd's Register of Shipping,

71, Fenchurch Street,

E.C.3.

Castle trawler "JAMES LAVENNY".

The Fisheries District Inspector reports as follows on the Gas Generator of the above trawler built by Messrs. J. Chambers of Oulton Broad.

"Condition new, but not suitable for ship owing to having only one charge box which means all lights out when recharging."

I shall be glad to receive your Surveyor's remarks on this matter at an early date.
