Ipswich, 7th December 1919.

REC'D 8 DEC 1919

ANS'D

Reference

A.

Dear Sir,

In reply to your letter of the 28th ultimo, respecting my first entry report on the Steel S.S. "THOMAS LAWRIE", built by Messrs John Chambers Ltd., of Lowestoft, I have to state that the thickness of collision bulkhead stiffeners is .38"., the shell plating of this vessel is joggled, and therefore does not require any liners to be fitted at the bulkhead frames.

I am, Dear Sir,

Yours faithfully,

The Secretary,
LONDON.
