s.s.No.2-23 CL 6,26

due 2nd Special Survey No.3 due 10,26.

ed to be held at Saigon.

The Saigon Surveyor states that Saigon is this vessel's home port and the headquarters of the Company's Superintendent Engineer and that under these circumstances the Owners are anxious that all work should be done there by their own shore staff and under their own supervision. The Surveyor therefore asks to be authorised to hold the above survey and also states the usual year of grace is requested, although it is the Owners' intention to complete the survey at as early a date as possible.

It is submitted the Saigon Surveyor might be authorised to undertake this survey. The usual instructions should be sent, and he should be requested to give the case very careful attention, and to cable the results of the drillings as soon as these are ascertained.
