To complete the Second Special Survey No.1 of this vessel, which became due in September 1923, the holds and bunkers require to be examined and repairs effected in the fore peak. She has recently been sold and the new Owners state that as she is being employed as a water tank vessel in Dakar Harbour, they do not consider it necessary to maintain her in the Society's Classification.

In the circumstances the Classing Committee, who had the case before them on Tuesday, 2nd instant, decided to give instructions for the vessel's character to be withdrawn from the Register Book and three dots (...) inserted in lieu thereof, indicating withdrawal of class at Owners' request.
