

Steel Screw Trawler "ISER".

In April, 1930, the Liverpool Surveyors held a survey on this vessel at Fleetwood, when expenses amounting to 15/- were charged.

Owing to the 2nd S.S.No.1, due 11.28, not having been completed, in April last the General Committee gave instructions for the class of the vessel to be expunged with a red line.

In reply to inquiry the Liverpool Surveyors state that the Owner does not intend to pay this amount. It is added, however, that the vessel may be reclassified and if so this amount will then be paid.

It is submitted that in view of the length of time that this small amount has been outstanding, instructions may be given for the sum in question, viz:- 15/-, to be written off as irrecoverable,
