ANSP

Dear Sirs,

S.S. "STRATHGYLE"

With regard to the visit from your Mr. Gardner-Smith  
yesterday, we have pleasure in certifying that a new Condenser Tube  
was fitted to this Steamer at Bremen before the Vessel left on  
voyage, and the Condenser thereafter re-packed and tested with water  
in the presence of our Manager, Mr. Andrew Chew, who is at present  
on duty.

Since the Vessel has left, we have received a Report from the  
Engineer from Antwerp, in which he states that the Condenser  
is working perfectly tight.

Trusting this will enable you to pass the Machinery for  
certification,

We are,

Yours faithfully,

*A. Rodger & Co*

~~We enclose herewith the letter which Mr. Gardner-Smith left with us.~~
