The Surveyors
MONTREAL, P. Q.

Dear Sirs;-

Montreal Report No. 5800
U.S.S. "MIGHT"

Herewith acknowledge receipt of your letter dated 15th instant covering a query raised in a Classing Letter from London relative to watertight bulkheads; length of combined bridge and forecastle and double bottom tank capacity.

We would confirm that there are seven (7) watertight bulkheads extending to the upper decks, the bridge and forecastle deck is in accordance with Circular No. 1551, while the capacity of the double bottom tank is 26.6 tons saltwater, i.e. Ford tank 11.8 tons, Aft tank 14.8 tons.

Yours very truly,

(Sgd) W. J. Bloomfield
