LLOYD'S REGISTER  
Recd. 25 JUN. 1924  
Ans'd.  
LONDON

24th June, 1924.

Dear Mr. Scott,

I duly received your letter of the 16th instant in regard to the case of the steamer "Dr. GONDIM", and, as desired, Dr. Montgomerie has looked into the matter. He has also consulted the Builders who not only do not object to a special notation being added to the character but consider it advisable that this should be done. The Report has accordingly been re-submitted to the Sub-Committee of Classification at their Meeting to-day and a notation of "Carrying water in bulk" has been added to the Class.

I am forwarding the First Entry Report along with other Reports to-day.

Yours faithfully,

J. H. Warlow.
