QUESTION.

ANSWER.

With reference to your memorandum of the 1st September last I shall be glad to learn how this case now stands.

Said

Date:— November 30th, 1931.

The safety valve easing gear on this ship has been fitted, and is reported to be satisfactory by the Owners.

The vessel is not working out of Vancouver, so that we have not been able to examine this, but the easing gear will be examined and reported on at the very first opportunity without making a special journey for the purpose.
