Ship's Name, Barge "CANADIAN NATIONAL NO. 109"

QUESTION.

ANSWER.

Date:— Sept. 1st, 1931.

With reference to your Report  
No. 2846 I shall be glad if you  
will let me know how the matter  
of the fitting of the safety  
valve easing gear now stands.

The safety valve easing  
gear for the donkey boiler of this  
ship has been placed on board,  
but has not yet been fitted in place.

We have communicated with  
the Owners today and they state  
that they hope to get it fitted  
this week, and will advise us  
accordingly.

*a Scott.*
