Bilbao. 4th November 1925.

LLOYD'S REGISTER OF SHIPPING,

Bilbao.

Sirs,

With reference to the expiration of the class of our fishing vessel "JUAN MARI" ex"IBIS V" I have to inform you that in view of the length of time which the vessel would have to be at the works for holding the survey all at once, the general engagements of the vessel do not allow me to retain the class. Those engagements and her fishing trade only allow of delays for repairs of a few days. No doubt you know that it is in my interest to have the vessel in the best condition and for that purpose I bring her to the works to do anything required for her voyages but to carry out all the repairs which you require at one time would cause a serious loss.

Notwithstanding the above/^{after}the vessel has been laid up a few times and after various repairs have been done (?) ^{for} I shall be glad to ask/your survey to **regain** the class.

I am, etc.,
