The Secretary,

LONDON.

Dear Sir,

Whaling Factory "BALABNA"

We beg to acknowledge the receipt of your classing letter of the 15th instant from which we note there is a discrepancy between the figures given by Messrs Harland & Wolff, Ltd., and those given in the enclosed report from our Newcastle Surveyors. We have today ascertained that the figure of 620 sq. ft. per superheater was not obtained from the North Eastern Marine Eng. Co., but from a calculation made by Messrs Harland & Wolff, Ltd., from the plan, and which could not possibly be considered accurate. We regret that this discrepancy was not noticed and we should be obliged if the total heating surface could be amended on our First Entry Report to give 26842 sq. ft. (i.e. 22292 sq. ft. plus 4550 sq. ft. superheater). Further the MN would also require to be amended to 1653.

The Newcastle Report is returned herewith.

We are, Dear Sir,
Yours faithfully,
The Surveyors,
