

S REGISTER, BARROW.

Lloyd's Register of Shipping,

Ramsden Square,

Barrow-in-Furness, 28th December, 1948.

Dear Sir,

Motorship "TURNIA"

With reference to your letter of the 24th instant, and to Reports 8 & 9 on the above named vessel, I have to state that the scantlings and arrangements of the vessel were partly verified by me and a First Entry Report begun before leaving Gdynia.

The dry cargo hold (with ceiling lifted) and the pump room have been examined and cofferdams tested and found satisfactory. ✓

Very few plans were available, the scantlings being checked against plans supplied by London Office of a sister vessel ("EL KARIM").

The First Entry Report on the machinery was in hand before leaving Gdynia.

I hope this information will help to clear up the matter.

Yours faithfully,

L. I. Hauser

The Secretary,

LONDON.
