

POSTPONED SURVEYS.

Case of the S.S. "STANVAC WELLINGTON" No. 77316 in R.B.

Built..... Owners.....

Class..... Port of Registry.....

Surveys due Special Survey due 10.50.
All cargo tank bulkheads and internal fittings to be specially examined and dealt with at the Special Survey. Loadline Certificate expired 31.10.50 extended to 1.5.51.

Proposed to be held.....

Remarks. In November last the Committee agreed to the Special Survey being postponed until February or March last provided the San Francisco Surveyor concurred. The Principal Surveyor for the U.S.A. cabled that the San Francisco Surveyors were agreeable and instructions were telegraphed to Yokohama to extend the Loadline Certificate until May 1st, it being concluded that the Special Survey would then be held.

In reply to enquiry the Principal Surveyor for the U.S.A. now states that the Owners have made arrangements for the vessel to be drydocked and undergo Special Survey at Hitachi Shipbuilding & Engineering Co. of Osaka on or about the 1st June.
