Reference

The Secretary
London,

Sir,

I beg to submit for the consideration of the Committee a letter received from the Owners of the new steam trawler "Northward", (Messrs Cochrane & Sons No. 354). The anchor certificates are also enclosed from which it will be seen that the first and third anchors are heavier than the Rule requires, and the second anchor considerably lighter than the Rule.

I will be pleased to be informed if under the circumstances the second anchor may be accepted.

The plan of Midship Section is enclosed for reference.

I am,
Svi,
Your obedient Servant,
Allison B. Wilson.
