classes being retained with this Society, but it appears that the reason for the transfer is a question of fees, the Bureau Veritas having arranged to charge an inclusive annual fee for the subsequent periodical and damage surveys to each vessel.

In the circumstances, the Classing Committee who had the cases before them on Friday, the 14th instant, decided to give instructions for the vessels' characters to be withdrawn from the Register Book and Three Dots (. . .) inserted <sup>10,38</sup> in lieu thereof in each case, indicating withdrawal of class at Owners' request.
