

Lloyd's Register of British & Foreign Shipping,

Maritime Buildings, East Dock Street,

Dundee, 7th November 1910.

Dear Sir,

In reply to your letter of 5th inst. regarding Van Nieuwkerk S.S. No 82, as you say we had no suspicion of anything being wrong with the Engine Room when you were in Dundee.

Attention was first called to the condition of same by the Engineer who are making preparations for fitting Machinery on board.

The foreman Engineer informed Mr. Low, (who you met) Manager of the Dundee S.P. Co., who in the absence of Mr. Ritchie is looking after Mr. Pile's interests. & at Mr. Low's request we examined the Rating.

I understand from Mr. Low that Mr. Pile desires to have the matter put right without making trouble. but seeing we had been specially asked to make an examination, I thought it best to let you know about the matter.

With kind regards
Yours faithfully,
Wm. Salmon

P.J.F. Hearle Esq S.P.
London.
