

S.S. "HELGA MOLLER".

Mr. Atkinson has now telephoned stating that after discussion with his Principals, the following is the position and supersedes previous statements received from Shanghai:-

- (a) The vessel is to be sold to China but it is not intended to take her out of class in the meantime.
- (b) It is desired to execute minimum repairs to enable the vessel to trade until the end of April/early May as a classed ship, but if the repairs are found to be too extensive the matter would have to be reconsidered.
