The decision of the Classing Committee in these two cases given on the 14th instant were withheld from confirmation pending further enquiry from the Bremerhaven Surveyor as to whether the acceptance of German currency for classification surveys held on German ships would affect the new German Owner's decision to transfer their classes to the Germanischer Lloyd.

It now transpires, however, that they will definitely be transferred to G.L. class, and accordingly the Minutes of the 14th instant are now offered for confirmation.
