M.V. "HIYE MARU", Hull No. 178. ✓

(Builders) Yokohama Dock Co., Ltd.

Dear Sir,

In the above vessels there are three deep tanks  
abaft the engine room, fitted abreast.

On 8th December 1930 I wrote you recommending  
the notation "Fitted for carrying Cargo Oil F.P. above  
150° F in deep tanks".

The Owners have now requested that the notation  
should indicate that there are three separate tanks, and  
will be obliged if the following notation may be inserted  
in the Register Book, viz; Fitted for carrying cargo oil  
(1930) Flash Point above 150° F in 3 deep tanks aft.

I am, Dear Sir,

Yours faithfully,

*A. McElashan*
