Dear Sir,

ANSD.....

See FE 10.12.

S.S. "MARGARET CLUNIES" ex "MULLION COVE".

In view of the Head Office private and confidential letter of the 13th January, 1947 regarding the re-classification fees for existing ships, I would like to submit proposals for consideration in respect of the S.S. "MARGARET CLUNIES" ex "MULLION COVE".

This is an unusual case the vessel being partly built under the Society's supervision but taken by the Admiralty prior to completion and converted to a depot ship and consequently never classed. Presumably, however, the main part of the initial new construction fee will have been earned and paid. The ship has been in hand during reconversion work at this Port during the past six months and difficulty has been experienced in obtaining material for the work and in effecting the necessary alterations on account of these not being done by any of the main local Repairers.

On the basis of 35% of new construction fee approximate figures of £136, £161 and £254 would result by using the three scales.

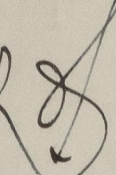

It has not been possible to effect a complete Special Survey or recommendation for full Classification, a considerable amount of reconstruction and examination work has been done nevertheless and approval for several alternative arrangements and scantlings obtained. It is proposed, therefore, that the following fees be charged:-
Work at Greenock.
