LMC 9,20  
TS 10,23.

To complete the Annual Survey of this vessel's boiler, due in December last, the safety valves require to be adjusted under steam. The Boiler Survey again became due at the end of last month.

OWNER: Oscar Dahl

These two trawlers have recently been sold by the Admiralty to a French Owner, who states in reply to enquiry, that he has decided to transfer them to the classification of the Bureau Veritas, as his other vessels are classed with that Society.

In the circumstances the Classing Committee, who had the cases before them on Tuesday, 25th instant, decided to give instructions for the character of each vessel to be withdrawn from the Society's Register Book and three dots (...) inserted in lieu thereof, indicating withdrawal of class at Owner's request.
