71, Fenchurch Street, E.C.3.

Enclosures

23rd January, 1951.

Dear Sirs,

T.s.m.s. "DIRECTOR MADARIAGA"

With reference to this vessel, which was completed recently by Messrs. P. Smith jr., and classed #100A1 "Carrying Petroleum in bulk", I think it well to send herewith a copy of a letter dated 19th ultimo which has been received from the Society's Surveyors at Rotterdam together with a copy of my reply.

The case has again received the consideration of the Committee, and the class has been continued subject to rubber bushes in cable glands of lighting fittings in bridge 'tween deck being replaced by lead bushes at the first opportunity.

I shall, therefore, be glad if you will inform the Owners accordingly, and make the necessary arrangements for this matter to receive attention at an early opportunity.

I would also draw attention to the Rotterdam Surveyors remarks regarding the "LA PLATA", and have to state that the First Entry Reports on this ship have not yet come to hand in this Office.

Yours faithfully,

Assistant  
Clerk to the Classification  
Committee.

The Surveyors,  
BUENOS AIRES.
