Lloyd's Register of Shipping
21, Yamashita-cho, Nakaku (P.O.Box 228)
Yokohama.

Attention of Mr. A.E.Munro.

Gentlemen,

re: M.S. "Arimasan-Maru" Wanted
to be Classed Lloyd's 100 A1
& L.M.C.

We wish to request you to arrange that
the Committee of Lloyd's Register will instruct the
Society's Surveyors to specially survey our M.S.
"Arimasan-Maru" in February next year in order the
vessel to be classed Lloyd's 100 A1, L.M.C. and
R.M.C.

The vessel, "Arimasan-Maru", was constructed
by Messrs. Mitsui Shipbuilding & Engineering Co., Ltd.,
Tamano Works in 1937 under strict supervision of B.C.
Surveyors, and was classed First Class vessel of B.S.x.
Her principal particulars are as follows:-

Length (P.P.)	<u>454.96 feet</u>	Beam	<u>61.99 feet</u>
Depth	<u>39.44 feet</u>	Draft	<u>29.65 feet</u>
Gross tonnage	<u>8696.5 tons</u>		
Engine	<u>Mitsui B & W 7,600 BHP Diesel Engine</u>		
Class	<u>ex British Corporation B.S.x.</u>		

Although we could not get the vessel surveyed
periodically by B.C. Surveyors during the War II, we
believe she is still now good enough to get her class
restored, and hereby ask you your favour to class the
vessel under your Lloyd's Rule. We presume that this
can be done by going through procedure of restoration
of ship's class, as you merged the British Corporation.

Of course, we are quite ready to arrange for
every facility to be given to your surveyors to carry
out the duty in question, and we agree to pay the fees
for the Surveyors' services in addition to the actual
travelling and other expenses incurred by the Surveyors
in connection therewith.
