

14 SEP 1949

'ARIMASAN MARU'

(Ex-BC vessel)

Vessel 12 years old
Special Survey fee £76.

Cu. Ton. approx. 8600

Reclassification fee £76 x $1\frac{1}{2}$ = £114.

IT IS SUBMITTED the Surveyors be informed the fee for a ship of this size and age, if, the Reclassification Survey was carried out in the U.K., would be £114.

The fee to be charged in Japan would require to be adjusted to suit and to conform to the practice of the port.

If more than the considered normal amount of survey repairs, etc. have to be effected and the number of visits increased thereby, the fees should be increased in proportion to the services rendered.

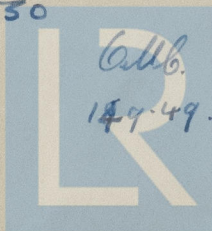

Blythwood Square was consulted regarding the machinery installation. H.P. machinery 7600 but original fee was based on a figure of 9046 for reasons D.M.B. Electric light 740 KW.

The minimum fee for reclassification of the machinery in the U.K. = MBS fee x $1\frac{1}{2}$
= £39 x $1\frac{1}{2}$ = £58-10s

13.9.49.

[Signature]

The minimum fee for reclassification of the electric lighting installation in the U.K. = special survey fee x $1\frac{1}{2}$
= £20 x $1\frac{1}{2}$ = £30
