ANSD.....

Dear Sir,

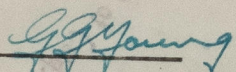

"ARIMASAN MARU"

With reference to the classing letter dated 5th May 1950, we have to state the Double Bottom frames 17/168 is 385 feet in length the capacity 1785 tons. The E.R. O.F. Double Bottom was omitted from the First Entry.

The L. strake plate starbd side amidship was .84 inches and not as reported .54 inches.

The anchor and cable certificates have not yet been verified, but it is hoped to do this early in August.

Yours faithfully,

For the Surveyors.

The Secretary,
LONDON
