

Lloyd's Register of Shipping.

FOUNDED 1760.

RE-CONSTITUTED 1834.

CERTIFICATE FOR ENGINES AND BOILERS.

No. 1096 N.B.S.

This is to Certify that the Engines and Boilers of the
Steel Screw Steamer "Byrus Sears"
1814 Tons, of London
Built at San Francisco, Cal. in 1943
have been surveyed at Sunderland
in April 1948
by the Surveyors to this Society, and reported to be in good,
efficient, and safe working condition, at a pressure of 250 lb.
per square inch on the main ^{W.T.} boilers. The approved working pressure
of the donkey boiler is ✓ lb. per square inch.

The survey having been completed, the Record LMC 4.48
(Lloyd's Machinery Certificate) has been made in the Register
Book, subject to Periodical Surveys as required by the Rules, and to
the S.P. cylinder repair being examined by 4.49 and automatic
feed-water regulators being fitted

Witness my hand,

P. Clement

Secretary.

R. A. A. A.
Chairman.

71, Fenchurch Street, LONDON, 14th May 1948

This Certificate is issued upon the terms of the Rules and Regulations of the Society, to which Owners are referred, and which provide that:—

"While the Committees of the Society use their best endeavours to ensure that the functions of the Society are properly executed, it is to be understood that neither the Society nor any Member of any of its Committees is under any circumstances whatever to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default or negligence of any of its Committees or any Member thereof, or the Surveyors, or other Officers or Agents of the Society."
