## LLOYD'S REGISTER OF SHIPPING

Port G O T H E N B U R G .17th July, 1961.This is to Certify *that I have*

Surveyed Part of the Machinery of the Steamer "FERNANDO", 1772 tons  
gross, of Barranquilla,

and that I will transmit to the Committee of Lloyd's Register of Shipping, London,  
 a Report stating that all recommendations made by me in connection therewith have  
 been carried out to my satisfaction; also that I will **Recommend** that in the case of  
 this Vessel the following Survey Records be made in the Supplement to the Register Book

MBS 6,61 on completion of the survey

and that her Machinery Classification Record be continued in the Book.

**Parts now examined:**~~(C.S. Items only)~~

Starboard main boiler throughout with superheater, safety valves and  
 mountings.

Safety valves of the starboard boiler and superheater adjusted under  
 steam to 160 lbs. per square inch.

Oil burning and steam smothering installations.

To complete the survey:

Port main boiler and superheater to be examined.

Their safety valves to be adjusted under steam.

**(B. Fridén)**

Engineer Surveyor to Lloyd's Register
