London.

Djakarta, 13th November, 1957.

Dear Sir,

"BAJAN" REPORT NO. 5175.

With reference to your Classing (S) letter dated 1st November 1957, in respect of the reinforced stern-frame solepiece of the above vessel, I have to report that from records at this office and the Dockyard's repairlist, it appears that no further repairs were required.

From this it is concluded that the item remains efficient and it is considered that no alterations to the Special Reasons List will be required.

Yours faithfully,

*Yave*
