Proposals
 already agreed

The case is fully stated in endorsement dated 24.5.60. On the 23rd June the Committee considered a report on the commencement of a General Examination afloat and deferred action for Special Survey and completion of the General Examination by the end of July, 1960. On 2nd September, 1960 the Committee approved a proposal to complete the General Examination in drydock and to hold the Boiler Survey at Suez by the end of September, 1960, on the understanding that these matters would be dealt with without fail.

New proposal

The Piraeus Surveyors cable that they are unable to make contact with the Owners but are pursuing their enquiries. According to the Shipping Papers the vessel arrived at Beirut on the 14th August and is stated to be "laid up - seized".

Technical
 commendation

Ship 37 years old.
