

RT on the **LAPSEKI.**

It is submitted the Freeboards given on the accompanying form, being those ~~required by the tables~~ <sup>corresponding to an extreme winter draught of 9'-11"</sup>, merit approval, the same to be marked on the vessel's sides, inserted in the certificate of classification, and recorded in the Register Book.

It is noted that this vessel is registered at Newcastle and it is concluded the limits of service for class, Batavia to Alexandria, will now require amendment.

The Surveyors should therefore ascertain from the local representatives of the Ministry of Shipping the limits of service of the vessel and advise this Office whether Load Line Certificates will require to be issued by this Society.
