

COPY.

21st August, 1924.

Dear Sirs,

With reference to Rotterdam First Entry Report No. 13590 on the Tugboat "CAIRNROCK" (Messrs. Van Duyvendijk's No.52) I have to inform you that the Society's Surveyor at Ipswich under whose inspection the machinery and boilers have been installed, reports that the donkey pump discharges to the peaks.

As the plans approved in your Office for this vessel do not indicate that the peaks have been constructed as tanks, I shall be glad to learn whether additional strengthening was fitted beyond that shown on the plans, to enable water to be carried in the fore and after peaks.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,

ROTTERDAM.
