Mr. W. Ford of Messrs. Harrisons (London) Ld. has called here this afternoon with regard to our letter of the 26th instant.

Mr. Ford states that he has already had the pipes etc. removed from the fore and after peaks in this vessel, and upon the next occasion of her being in London, which will be very shortly, he will telephone through with a view to one of the Society's surveyors paying a visit to the steamer, so as to ensure that a fresh certificate clear of conditions can be issued.
