The screwshaft survey of this tug became due at the
end of last month, and, in reply to inquiry, the Owners now
state that it is not their intention to maintain her
classification in the Society's Register Book.

The case received the consideration of the
Classing Committee on Tuesday, the 22nd instant, when it was
decided to give instructions for the vessel's class to be
withdrawn from the Register Book, and three dots (...) inserted
in lieu, indicating withdrawal of class at Owners' request.
