

Chief Ship Surveyor .....

Received from Chief Ship Surveyor .....

23 MAY 1928

VAME Stl. S.S. "NERO".

Rpt. Lon.

No. 92672.

Records of the Chief Ship Surveyor are desired on this case for the consideration of the Classing Committee.

The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/92.)

Survey .....

The 2nd S.S.No.2, due 9.27, was partly held in March 1927 by the ranging of cables and examination of chain locker.

The vessel required to be examined in dry dock on account of grounding.

The London Surveyors now report the vessel examined in dry dock and the special survey advanced.

Repairs are required to shell plating, decks, framing, floors, etc. and in view of the extensive nature of the same the Owners have decided to endeavour to dispose of the vessel which is now laid up for an indefinite period.

The Surveyors recommend that the special survey be carried out before the vessel is again placed in commission.

It is submitted action be deferred and the Owners informed of the Surveyors' recommendation.
