" We regret, however, that we are not in a position to give you any definite information as to the carrying out of the above steamer's Boiler Survey. The vessel has not been on this side for many months, having traded from N. America to Marseilles and back to America, and the last news we received was that she left Boston on the 7th instant (Aug.) for Yokohama, where we believe she will be handed over to new Owners.

Her present Owner is now in New York. "
