Dear Sir,

"TAMON MARU"

I have your Report No. 343 in respect of your examination of the above vessel for damage to the stern.

It is noted that you have recommended permanent repairs to be carried out at the first opportunity. This is considered to be too indefinite and it is suggested that the class shall be made subject to the stern being specially examined and dealt with as necessary at the next drydocking.

I shall be glad if you will issue an amended interim certificate and forward a copy to this office.

Yours very truly,

WGS : ii
