8th September, 1954.

Dear Sir,

I duly received your letter of the 30th July last regarding the Motor Tug "VIVI", and note your remarks.

The Committee, however, are not satisfied with the position regarding the steering chains. You state that according to your information new chains were ordered from the U.S. about a year ago and have not yet been delivered. They cannot understand this, and have declined to issue any Special Survey notation until the renewals have actually taken place.

As regards the machinery, they note that the reamering out of the coupling bolt holes of the screwshaft coupling and the renewal of the coupling bolts has not yet been done, and similarly they have withheld the assignment of any machinery record until notification has been received that this item also has been attended to.

Perhaps therefore you will confer with the Owners and arrange for the outstanding items to be dealt with as soon as possible. At the same time I would call attention to my letter of the 3rd ultimo regarding the Tug "ARTHUR BEMELMANS", to which I have not yet received a reply.

Yours faithfully,

Clerk to the  
Classification Committee.

R. Lascelles, Esq.,  
ANTWERP.
