(Ref. H.)

To. The Surveyor(s) at **ANTWERP**

Date: 2nd April, 1953.

Vessel's Name: s.s. "ARTHUR BEMELMANS"

### QUESTION.

With reference to my classing letter of the 17th February last, I shall be glad to learn if you are now in a position to furnish me with the required information as to whether the safety valves were adjusted at Matadi in January last.

Should it prove that they were not attended to, I shall be glad to learn what arrangements are proposed for them to be dealt with.

*L.R.*

### ANSWER.

Date:— 20th April 1953.

It has now been confirmed that the Safety Valves were adjusted in January last, by Mr. Stuer Chief Engineer of the s.s.  
"CAPITAINE LIMBOR".
