

Extract from Ant. Classing Letter.

17th February, 1953.

"ARTHUR BEMELMANS" I have to acknowledge receipt of your letter of the 5th instant enclosing a report of the Boiler Survey held at Matadi. I have to inform you that action has been deferred for the completion of this survey, as it is concluded from the report that the safety valves were not adjusted, but I shall be glad if you will confirm this.
