

6th December, 1952.

Dear Bob,

You will see from our Classing Letter of the 27th ultimo that your report on the wretched Tug "ARTHUR BEMEELMANS" went through the Committee so far as the Special Survey at Matadi was concerned.

It is pointed out to me, however, that as the boilers were seen in 3,51, another Boiler Survey became due in March last, and I shall be glad to learn what action you can suggest might be taken in regard thereto.

With kindest regards,  
Yours sincerely,

R. Lascelles, Esq.,  
ANTWERP.
