1st d.

Dear Sir,

Motorship "SHAKTI"

With reference to your letters of the 21st June and 2nd July regarding the proportions of steel used in the construction of the above vessel which were tested or check tested by the Society's Surveyors.

The Naples Surveyors now report that approximately 25% of the steel materials were tested at the steel-works and that satisfactory check tests of the prefabricated steel amounting to about 60% of the total weight, were also made at the Shipyard.

Yours faithfully,

The Secretary,
London
