

"CAPTAIN FARMAKIDES" and "CHELATROS"

The proposed withdrawal from Lloyd's Register class of these two ships was mentioned to Mr. John Kulukundis during his visit to this Office to-day. He pointed out that both ships were owned by associated Companies, but he suggested that the proposal to drop L.R. class arose from a fear that the Society would insist on strengthening of the bottom and that the Owners wished to avoid this expense.

He dissociated himself from this point of view and requested that the matter of these two ships be left to him. We should therefore await a further communication from Messrs. Rethymnis & Kulukundis, Ltd.
