Axsd. 21
LONDON

Dear Sir,

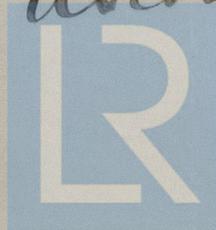

The new Skandia Oil Engine to be fitted in the Burrard Dry Dock Co's Hull No. 110, has arrived, but there is no Certificate with the Engine.

The mark on the Crank Webs is "Lloyd's No. 8006. G.A. 19.10.25". The Webs are also stamped "15387 - 35985", the latter being probably heat numbers.

This Engine has been shipped direct by the Skandia people from Lysekil.

If the Surveyor's report on this Engine has not yet been forwarded, I shall be glad if you will send it to Vancouver without delay, as the Ship is expected to complete very early in July.

Yours very truly,

A. Scott
